

HTML Questions:

Question 1: Create a webpage with the following requirements:

1. The title of the page should be: "My First Web Page".
2. The page should include:
 - A main heading with the text "Welcome to My Web Page".
 - A subheading with the text "About Me".
 - A paragraph describing yourself in one or two sentences.
 - An image of your choice. Use an online URL for the image source or upload an image locally.
 - A list of your three favorite hobbies:
 - Use an unordered list.
 - A hyperlink to your favorite website.
3. Add a footer at the bottom with the text "Created by [Your Name]".

Question 2: Create a new HTML file

1. Write HTML code to create a form that includes:
 - A text field for the user's **name**.
 - An email input field for the user's **email address**.
 - A text area for the user's **message**.
 - A dropdown to choose a **reason for contact** (e.g., Feedback, Support, Inquiry).
 - Radio buttons to indicate the user's **preferred contact method** (e.g., Email, Phone).
 - A submit button to send the form.

Question 3: Instructions: Create a new HTML file

1. Write HTML code to create a table that displays the following information about three students:
 - **Name**
 - **Age**
 - **Subject**
 - **Grade**
 - **Enrollment Status** (e.g., Enrolled, Pending)
2. Enhance the table to include the following features:
 - A **caption** describing the table.
 - Use a **header row**.
 - Use **footer row** to display a summary of the students.
 - Highlight the header row using a specific background color.
 - Merge cells in the footer row for a summary.
 - Add a **rowspan** for the student with multiple subjects.
 - Use proper table elements: `<thead>`, `<tbody>`, `<tfoot>`, `<th>`, and `<td>`.

Question 4:

1. Create a folder named `MultiPageWebsite`.
2. Inside the folder, create three HTML files:
 - `index.html` (Home Page)
 - `about.html` (About Us Page)
 - `contact.html` (Contact Us Page)
3. Implement the following features:
 - A **navigation bar** at the top of each page to link to the other pages.
 - Use appropriate HTML tags like `<header>`, `<nav>`, `<section>`, `<footer>`, and `<main>`.
 - Include placeholder text and sections for:
 - **Home Page:** A welcome message and a brief description of the website.
 - **About Us Page:** A paragraph describing the purpose of the website.
 - **Contact Us Page:** A form for users to fill out their name, email, and a message.
4. Add a **table** on the "About Us" page to display team member details (e.g., Name, Role, Experience).
